About the book:

This book is a collection of articles by eminent theological and philosophical scholars throughout Asia. These scholars of Islam, Christianity, Judaism, Buddhism and Hinduism, have critically analyzed the roles their respective religious and philosophical traditions play in the promotion of World Peace, from their unique Asian perspectives. They bring together, under one roof, the valuable insights of the great religious and philosophical traditions on the issue of peace. The articles in this book hope to contribute towards building practical peace in Asia and beyond.
