

Consultative Dialogue on The preliminary findings from the survey on waste management practices at Municipality and District level

Date: 29 May 2015

Time: 08:00-12:00

Venue: National League of Councils

Background

The National Committee for Subnational Democratic Development (NCDD) in cooperation with the Ministry of Environment (MoEnv) has been reviewing the legal framework on Waste Management. A new Sub Decree is therefore currently drafted, aiming at transferring the function of waste management to the District/Municipal level.

To better understand the situation of the implementers at the sub-national level, *NCDD* in cooperation with The *National League of Municipality Districts/Khans Communes/Sangkats Councils* (NLC/S) and *Konrad-Adenauer-Stiftung* (KAS) are collecting experiences and lessons for documenting the current practices and challenges on Waste Management at the district and Municipality level. This documentation serves as one of the important tools for national policy makers to support the development of proper waste management policies in response to local needs.

Objectives

This dialogue aims firstly at presenting the outcomes of survey, i.e. how have the District and Municipality (DM) Board Members so far performed towards proper waste management in their locality, including how those DMs privatize this activities (if any). Secondly, the dialogue provides an opportunity for the policymakers (Waste Management Working Group) and the implementers (DMs) to discuss and review the provisions in the Draft Sub-Decree detailing the future function, responsibility and tasks of the DM.

Expected Results

The expected results from this dialogue serve as inputs, contributing to the successful revision of the on-going Waste Management sub-decree, given that the policymakers can hear some potential challenges from the implementers on the upcoming waste management decentralization and delegation.

Participants: around 17

- Representatives from the (Working Group in Charge for Drafting the Sub Decree on WM from MoEnv and NCDD, **6**
- Representatives from **5** selected Municipal Districts involved in the pre-testing
- Representatives from the NLC, **3**
- KAS, **3**

29 th of May 2015		
07:30	Arrival	
08.00-08:15	Opening Remarks	H.E. Soy Kosal, Chairperson of the NLC/S Denis Schrey, KAS Cambodia
08:15-08:45	Presentation of the results of the Pre-testing Survey Rous Chanthy, Project Coordinator, KAS	<u>Moderator</u> Pok Sokundara, Secretary General, NLC/S
