

MICT Information Session Day
**"Bringing Government Services
closer to the people".**

14 May 2022

Roman Kasino, Project Assistant

The Ministry of Information and Communication Technology held an information session day in Windhoek's Samora Machel Constituency, at Goreagab Sport Field, on Saturday, 14 May 2022. The event titled, "Bringing Government Services closer to the people" aimed at sharing information related to government programmes, policies and projects and bringing services closer to the people.

In attendance was the Deputy Minister of Information and Communication Technology, Hon. Emma Theofelus, Samora Machel Constituency councillor, Hon. Fanuel Shivute, representatives of ministries, government agencies and members of the public. In her key note address, Hon Theofelus emphasised that "information is power" and it is important that the general public is well informed about government programmes and policies for effective future decision-making.

The KAS team was also on the ground from 10h00 – 13h10, to share publications and information related to our work both in Namibia and Angola. The public took so much interest in the KAS work, more in particular the Namibian Constitution in local languages, law journals and green hydrogen publications. The KAS team could have done better by bringing along more Oshiwambo and Otjiherero Constitution booklets.
