

## **Newly Revamped Parliament Website Launch**

On Thursday, 22 July, 2021, The speaker of Parliament Hon Prof. Peter Katjavivi launched the revamped website of Parliament. The website was developed in partnership with the Konrad-Adenauer-Stiftung (KAS). A Parliament website is an important tool for Parliament as it serves a medium of communication between decision makers and the electorates. It is more important during the times of COVID -19 when physical contact is limited. At the website launch, Prof. Katjavivi noted "We have started the process to transform into an e-parliament, which will enhance digital parliamentary democracy through online citizen engagement and participation. Our transformed parliamentary website is therefore crucial in ensuring this transformation." The new website has added features that allows Bills to be tracked. Hence, allowing participation in decision making. Frau Natalie Russman of KAS noted at the event, "we are happy to partner with Parliament on this important project, we are even more happy that it is being launched today."
