

## **Water Management Workshop**

---

**10 to 11 May 2021**

*Dennis Zaire, Senior Programme Manager*

To raise awareness to Regional Leadership, on the Role of Leadership in Water Technology Innovations in Enhancing Job creation, a workshop was hosted in Gobabis from 10 to 11 May 2021. Participants included Regional Councilors, CDC members, Local Authority Leadership, Water Utilization Committee Members, Church Leaders and other interested key stakeholders on development issues.

34 stakeholders benefitted from Understanding key challenges facing their Region and their possible causes, they also understood opportunities and potentials available in their Region and, understood the key factors needed to induce the realization of Regional key opportunities and potentials aimed at defeating the key challenges. The workshop was a success.
