Overcoming the Economic Crisis

Perspectives for the German and European Economy

The German Chamber of Commerce Shanghai and the Konrad-Adenauer-Stiftung's Social and Economic Governance Programme Asia (SOPAS) kindly invite you to discuss recent economic, financial and currency developments in Germany and Europe against the background of the European debt crisis with Dr. Michael Fuchs, Member of the German Bundestag, on 10 July 2012.

Debt crises in Greece and other countries, the fate of the EURO – since 2010 news from Europe have become worse. On the other hand some countries in Europe – especially Germany – show remarkable economic strength and a favourable growth. How is the overall outlook for the European economy? Is the European Union falling apart or will the crisis help to step forward towards a more integrated community? What is Germany's role and how is its economy affected?
