

Non-Government Organization (NGO) Need Assessment Survey

Responding to Food Security and Livelihood

Welcome to My Survey

Thank you for participating in our survey. Your feedback is important.

The National Human Security Forum (NHSF) in collaboration with Konrad-Adenauer-Stiftung (KAS) and Lebanese Organization for Studies and Training (LOST) are conducting this nationwide NGO need assessment survey in order to identify civil society groups' capacities to respond to emerging food security and livelihood challenges in the different regions of Lebanon. The aim is to compile national data toward determining NGOs' need priorities ahead of devising a national action plan to respond to emerging threats. The result of the survey will be shared with survey participants and will be discussed during an October meeting that will assemble international organizations, donors, NGOs, and various stakeholders toward formulating and endorsing an action plan.

Hence, completing this survey will help us identify your needs and will address "NGO's Response to Food Security and Livelihood in Lebanon". Your participation in this survey is voluntary and should not take more than 15-20 minutes of your time to complete. The result of the survey will be shared with you after completion.

If you have any question or comments, please do not hesitate to contact NHSF Director Dr. Imad Salamey: isalamey@hotmail.com or NHSF Coordinator Dr. Maria Noujaim: marianoujaim@gmail.com.
