Dear Friends of KAS Canada,

I hope you all had a pleasant break over holidays. Our foundation is ready to engage in new activities in 2026, with democracy being the focus.

We had a tumultuous and fast beginning to 2026, with multiple foreign policy issues taking headlines in newspapers.

In January, we have so far seen the United States' intervention to Venezuela, protests in Iran, MERCOSUR deal with EU, the talks around CUSMA renewal and further domestic talks.

The CUSMA is up for review this year, to decide whether it will be left to expire or another deal will be worked out. Canada on the other hand, announced that it would like to double its non-US exports in a decade and turn its focus to Europe and Asia.

Our foundation's focus this year will be standing up for democracy- standing together for freedom. Peace starts with us, and nothing is for granted. We will celebrate 150<sup>th</sup> birthday year of Konrad Adenauer, his legacy and also, the 75 years of German-Canadian diplomatic relations.

The year 2026 is significant for us, since both Canada and Germany celebrate their 75th year diplomatic ties, but facing global challenges.

The brutal war in Ukraine is going on, unfortunately today, the rules-based order is threatened by Russia, in the Indo Pacific region by China against Taiwan in near Southeast, and by Iran. In North Atlantic, the crisis to be averted for Greenland, because the European, NATO Allies are standing strong together. Moreover, the security related, the recently released US National Security Strategy focuses on mainly the US itself.

Furthermore, in a world where multilateralism is questioned, our foundation underlines the importance of partnership, responsibility, collaboration and diplomacy. Respect to International Law, to the UN charter, and the sovereignty of other countries is fundamental.

On January 27, we had an event focusing on Ukraine with Canadian Global Affairs Institute.

On February 10, we will also organize a New year reception with University of Ottawa, and Konrad Adenauer Research Chair on the challenges for the future in uncertain times and democracies on defence.

We are motivated than ever and looking forward to welcome you in our events in coming weeks and months.

Wishing you a happy 2026,

Yours,  
Bernd Althusmann

## Social media and interaction boost

We would like to thank you for reacting to all of our posts  
and event announcements.

We have new followers through LinkedIn, and multiplied  
reactions and comments through Instagram.

A BIG  
**THANK YOU**

Our Canada Office, based in Ottawa, was established in 2019, promotes multilateral cooperation as well as exchange between Canada, Germany and Europe on the most important global challenges of our time, especially in the areas of security, technology, climate change and migration.

As the first Chancellor of the newly-formed Federal Republic of Germany from 1949-63, Konrad Adenauer changed the face of post-war German and European history more than any other individual. Adenauer's experiences during the Second World War made him a political realist and he focused his attention on promoting the idea of pan-European cooperation. Our foundation is based on his values.

"When the world seems large and complex,  
we need to remember that great world ideals all begin  
in some home neighbourhood."
